<https://www.youtube.com/watch?v=XS0WF-TEZzc>

Tech visionary Steve Jobs understood better than anyone the impulse to believe that technology can solve our most complex societal problems. "Unfortunately it just ain't so," he said. "We need to attack these things at the root, which is people and how much freedom we give people. ... I wish it was as simple as giving it over to the computer."

<http://www.cnn.com/2013/04/08/opinion/kopp-kids-real-teachers/>

Teachers should take on the habits of
their modern learners...

If you want it or need it...

FIND IT!

And, contrary to popular
belief, not everything is

So let's change the focus
of our teacher training...

Stephen Bronack, UNC Charlotte

PROFESSIONAL use of TWITTER

The screenshot shows the Twitter profile of Tammy Estes Fry (@tammyfry). The browser address bar at the top displays "Twitter, Inc. [US]" and the URL "https://twitter.com/tammyfry". The navigation bar includes links for Home, Notifications, Messages, Discover, and a search bar. The profile header features a blue background with a profile picture of a smiling woman and statistics: 861 Tweets, 735 Following, 476 Followers, and 57 Favorites. An "Edit profile" button is located to the right of these statistics.

72 Photos and videos

The main content area shows two tweets. The first is a retweet from New Tech Network (@newtechnetwork) dated 20h, announcing "The New Tech Network Daily is out!" with links to a paper and mentions of @betamiller, @AnthonyCody, and @tammyfry. The second tweet is a retweet from John C. Carver (@johnccarver) dated Jan 27, featuring a yellow sunburst graphic with the text "We want to create a school where students, staff and parents are" and a link to a collaborative writing session via FaceTime and Google Drive.

Windows taskbar at the bottom shows icons for Internet Explorer, File Explorer, VLC, Google Chrome, and other applications. The system clock indicates 10:12 on 1/2.

Demonstrate Advantages of Connections

The screenshot shows a web browser window displaying the Twitter profile of FEAkansas (@FEAkanas). The browser's address bar shows the URL <https://twitter.com/feakansas>. The Twitter navigation bar at the top includes links for Home, Notifications, Messages, Discover, and a search bar. The profile header features a large red banner with the Future Educators Association (F.E.A.) logo and name. A prominent yellow award badge with the letters 'FEA' is overlaid on the left side of the profile. Below the header, the profile statistics are listed: 23 TWEETS, 33 FOLLOWING, and 38 FOLLOWERS. A blue 'Following' button is visible. The profile bio identifies the account as 'FEAkanas' (@FEAkanas) and mentions 'Logo by Mitchell Norris, CAPS'. A section titled '14 Followers you know' displays a row of profile pictures. The main content area shows a tweet from Morgan Greenstreet (@mlgreenstreet7) dated Jan 13, which is a retweet of a selfie with the hashtags #mnuwired and @FEAkanas @wevegotclass. The tweet includes a video thumbnail showing two people on a stage. The Windows taskbar at the bottom shows the system clock as 10:31 AM on 1/28/2015.

PROFESSIONAL DRESS CODE

As educators, our commitment to excellence should be reflected in our appearance. In general, a business casual style is appropriate for professional and paraprofessional employees. The following guidelines for teachers and instructional/office assistants have been developed to answer any questions about the district's standards for dress.

Guidelines for Men

Male employees should wear collared shirts, such as polo style, oxford style or dress shirts, and these may be long or short sleeved. Turtlenecks are also acceptable, but these would preferably be worn with a sport coat or jacket. All shirts should be worn tucked in. Acceptable sweater styles include pullover and cardigan styles. Although not required, men are encouraged to wear jackets and ties to work. Facial hair for men is allowed, but is expected to be neatly trimmed and should be established. The clean shaven appearance is expected otherwise.

Unacceptable types of shirts include T-shirts, sweatshirts, banded-bottom shirts or smock-style shirts designed to be worn untucked. Tailored dress slacks or business casual (Dockers® style) pants in a fabric other than denim are considered appropriate for the workplace. If the pants have belt loops, a belt should be worn.

Sweatpants, wind pants, warm-ups and cargo style pants are not considered appropriate for the workplace. Shorts should only be worn in P.E. or athletics classes; coaches are to be in professional dress while in the regular classroom.

Jeans are only acceptable on days designated by the principal and are expected to be worn with spirit shirts. Be sure that jeans worn to work fit appropriately, are not torn or overly faded and do not show signs of excessive wear.

Acceptable footwear includes dress shoes or casual shoes, such as leather-like, suede or loafer styles. Boots are also acceptable. Tennis or athletic shoes are acceptable only on jean days. Men should not wear sandals to work.

Guidelines for Women

For female employees, clothing should convey a professional image by being coordinated, modest and appropriate for a business setting. Collared or uncollared shirts and tops may be pullover or button style. Shirts and tops that are not made to be worn out (i.e. shirts or tops with a tail) should be tucked in. With regard to sleeve length, sleeveless shirts and tops are only acceptable for the workplace when worn under a jacket or a shirt-jacket at all times. Low-cut tops or shirts that reveal the midriff should never be worn to work.

Double Robot

picassohead

[ABOUT](#) | [GALLERY](#) | [CREATE](#) | [SEARCH](#)

Picassohead, a digital tool that allows users to create their own masterpieces using famous features drawn by Picasso, is a creation of award winning digital agency RFI Studios and global public relations company Ruder Finn. In addition to being a popular tool used by students and teachers internationally to learn about art and promote creativity, Picassohead is also a nod to Ruder Finn's longstanding admiration of art and artists. When co-founder and art aficionado David Finn began his company in the 1940s, his original goal was to bring art into corporations, and strengthen ties between the business and creative worlds. Though Ruder Finn quickly expanded and came to encompass vast areas of expertise in other industries, this was the beginning of a long history between Ruder Finn and art. Currently the firm still maintains an Arts consultancy in its Manhattan headquarters.

Picassohead was conceptualized by Ruder Finn Chief Creative Officer Michael Schubert and executed by the design team at RFI Studios in 1999.

Eureka.in way of learning

Eureka.in is a comprehensive, innovative and interactive 3D educational software solution for learning science subjects covering K12 curriculum. It ensures value addition to use of ICT in education.

A mention of benefits

- Increases educational effectiveness by introducing & explaining difficult topics in Science covering the K12 spectrum.
- Equips teachers with high quality content, thus saves time in explaining difficult concepts & revising the syllabus.
- Helps students in visualising complex topics resulting in better understanding, retention & improved grade patterns.
- Adds 3 Dimensional value to a traditional classroom teaching & learning environment.

3D Stereoscopy

Eureka.in is making students across the world learn, enjoy and understand complex topics of K12 curriculum in high definition 3D stereoscopy, this makes education exciting like watching movies. Designmate is the only company across the globe imparting K12 education using 3D stereovision. The impact of 3D stereo on child's memory needs no elucidation & leaves behind a wow factor of introducing unique methodologies in education.

Eureka.in - The Champion e-Learning Software

Designmate has converted text books into colourful 3D animated movies with interactive virtual labs, games and puzzles. We pioneer in the Indian animation industry with strong credentials and expertise to make 3D content play on simple P-III machines. We have transformed ourselves as a leading technology based e-

TLE TeachLive™

The TLE TeachLive™ Lab is a mixed-reality teaching environment supporting teacher practice in classroom management, pedagogy and content. The TLE TeachLive™ Lab, developed at the University of Central Florida, is currently being implemented across 42 campuses in the United States and growing to include multiple school districts and international partners. Each partner utilizes the TLE TeachLive™ Lab in a unique manner depending on the needs of their students, teachers, professors, and community stakeholders. The TLE TeachLive™ Lab provides pre-service and in-service teachers the opportunity to learn new skills and to craft their practice without placing "real" students at risk during the learning process.
